## **AFDA to AFDA Express Mapping Guide**

This guide enables AFDA classes to be mapped to merged or 'rolled up' classes in AFDA Express. It is arranged by the function and activity business classification scheme (BCS) of AFDA. The document will be useful for agencies wishing to check the minimum retention periods in AFDA to assist in deciding whether the rolled-up AFDA Express disposal action best meets their administrative needs. It will also be a useful sentencing tool for agencies using the BCS to title records on creation.

Some activities have a 'No class' entry in the AFDA column. In these instances other AFDA functions and activities are referred to through 'For' statements leading to a disposal class. For example, in the AFDA BCS most functions include 'Acquisition', 'Contracting-out' and 'Tendering' that are now covered under classes in the Procurement function. With these 'No class' entries the mapping document indicates which AFDA Express class should be used.
